

Elliot,

I just want you to know how much we appreciate your help in selling out rental property. You were able to move this property against many obstacles in a time period that I thought was impossible. I think what gave me the most confidence is when you were able to sit down with me at any time and explain to me what was happening, why you were doing it, and when it would be done. Everything you said happened and on time.

If I need any real-estate bought or sold I will go through you. I've already referred you to friends.

You're a lifesaver, thanks.

Glenn Cloyd
